

Anderson Camacho Palacios

Senior Software Engineer

Medellín, Colombia | anderson_camacho@outlook.com | [LinkedIn](#) | +57 350 512 5930

Professional Summary

Software Engineer with over **4 years of experience** in software development and architecture. Specialized in designing and implementing **microservices, distributed systems**, and event-driven architectures. Extensive experience with **AWS, Kubernetes, Kafka**, continuous integration (**CI/CD**), and observability. Proficient in both **object-oriented and functional programming paradigms**. Strong commitment to development best practices, including **TDD, BDD, and DDD**. Skilled in languages such as **Java** and **Scala**. Excellent communication, mentoring, and collaboration skills within multidisciplinary teams.

Work Experience

Software Architect

Ceiba Software | September 2021 – Present

- Designed and optimized over **9 microservices** applying principles of **hexagonal architecture** and **DDD**.
- Implemented **security solutions** using **SAML, XACML, OAuth 2.0**, and identity management with **LDAP**.
- Configured **CI/CD pipelines** using **Jenkins** and **Azure DevOps**, improving deployment efficiency.
- Migrated systems to cloud environments using **AWS services**, including **Lambda, S3, ECS, and EC2**, and containerized with **Kubernetes**.
- Improved response times and scalability by optimizing connections and code performance.
- Participated in design and technical decision-making, assuming leadership responsibilities when necessary, applying agile methodologies (**Scrum** and **Kanban**).

Technologies: Java, Scala, Spring Boot, AWS (Lambda, S3, ECS, EC2), Kubernetes, RabbitMQ, DynamoDB, Jenkins, Sonar, Angular.

Information Technology Trainer

Oracle Corporation | March 2020 – Present

- Trained **educators** in **Java, PL/SQL, and APEX**.
- Designed and delivered course materials tailored for education professionals.
- Provided support and mentoring in the use of **Oracle Cloud** and other educational tools.

Key Achievement: Trained over **1,000 educators** through continuous training programs.

Education Coordinator in LATAM

p4s.co (Partners For Startups) | March 2020 – September 2021

- Managed educational projects, overseeing execution and goal achievement.
 - Implemented improvements in billing processes and financial control.
-

Education

Computer Engineering

Politecnico Colombiano Jaime Isaza Cadavid

Certifications

- **Certified Scrum Developer (CSD)** | Scrum Alliance
 - **Scrum Foundation Professional Certificate** | CertiProf
 - **Java SE Object-Oriented Programming** | Oracle Academy
 - **Bootcamp English for Developers** | Código Facilito
-

Technical Skills

- **Programming Languages:** Java, Scala, TypeScript, PL/SQL.
- **Back-End:** Microservices, Spring Boot, Akka HTTP, Play Framework.
- **Databases:** PostgreSQL, Oracle, DynamoDB.
- **Cloud & Infrastructure:** AWS (Lambda, ECS, S3, EC2), Azure, Kubernetes.
- **Messaging:** Kafka, RabbitMQ.
- **CI/CD:** Jenkins, Azure DevOps, Git.
- **Architectures:** Hexagonal, Event-Driven, DDD, TDD, BDD.

Soft Skills

- Mentoring and leadership
- Multidisciplinary teamwork
- Complex problem solving
- Continuous learning
- Excellent communication and collaboration

Key Achievements

- **Developed a service** that streamlined the sale of intangible products, reducing the post-sale process from **up to two days** to a maximum of **2 minutes**, with response times of **20 seconds** and customer notifications within **2 minutes** on average.
 - **Implemented a solution** to address legal workflow modifications requested by the Superfinanciera during an audit, refactoring the system to comply with legal guidelines.
 - **Designed an authorization and authentication system** based on **OAuth 2.0**, integrating customer evaluation and active directory services to isolate the existing component and deliver it to new clients.
 - **Facilitated AWS migrations**, ensuring seamless transitions without service interruptions.
